PETITIONS OFFICE

Dear Manuel:

Re: U. S. Patent Application Serial No. 10/082,364, entitled METHOD AND SYSTEM FOR TRANSFERRING FUNDS AND VIDEO MESSAGES

Enclosed is a copy of the above-identified United States utility patent application including a Declaration accompanying this application. This utility patent application is based on the United States provisional patent application Serial No. 60/271,919 that was filed naming you and I as joint inventors. I have also enclosed a copy of this provisional patent application. I believe that you contributed to at least some of the inventions being claimed in the utility patent application based on the provisional patent application. Therefore, you have been named as a joint inventor in the utility patent application. We have assigned both these applications to Viotran LLC.

Please sign the Declaration accompanying the above-identified United States utility patent application and return to me as soon as possible. I have been informed that your signed Declaration must be filed with the United States Patent & Trademark Office no later than August 21, 2002. I have enclosed a Federal Express envelope address to me with postage prepaid that you may use to return the signed Declaration. If you prefer you could simply fax the signed Declaration to me at the following fax number: 407-246-2520

I have also enclosed two pre-paid envelopes (One FedEx and the other UPS) for your convenience.

If I do not receive this signed Declaration by August 16, 2002, I must assume that you are refusing to sign this Declaration.

Sincerely,

Max Wasserman
